INDEX TO VOL. VII (B).

AUTHORS' INDEX.

Abdussalam, M. .. On a new nematode parasite of the Himalayan flying squirrel (*Pteromys inornatus*, Geoffroy), 323.

Ahmad, S. .. .. A study of *Aitchisoniella himalayensis*, Kash, 206.

Aiyar, R. Gopala, and Nalini, K. P. Observations on the reproductive system, egg-case, embryos and breeding habits of *Chiloscyllium griseum*, Mull. and Henle, 252.

Alam, Nek .. .. *See* Pal and Alam.

Ayyangar, G. N. Rangaswami, Rao, V. Panduranga, and Ponnaiya, B. W. X. Studies in sorghum—the non-auriculate and E-ligulate condition, 286.

Ayyangar, G. N. Rangaswami, Rao, V. Panduranga and Reddy, T. Venkataramana Studies in sorghum—Internodes and leaf-sheaths, 161.

Basheer, Mohamed .. *See* Cherian and Basheer.

Cherian, M. C., and Basheer, Mohamed *Brachymeria excarinata*, Gahan (family chalcididæ) a pupal parasite of *plutella maculipennis*, Curtis, in South India, 289.

Chiplonker, G. W. .. Rhynchonellids from the Bagh Beds, 300.

Chopra, R. S. .. .. Notes on Indian Hepatics. I. South India, 239.

Choudhuri, R. S. .. *See* Singh and others.

Dayal, J. .. .. Studies on the trematode parasites of fishes. A new trematode *Neoganada barabankiae* (Nov. Gen., Nov. Spec.) from *Clarias batrachus*, 132.

A new trematode, *Phyllochorus macronius*, N. Gen., N. Sp. belonging to the family *Gorgoderidae* Looss (1901), from the body-cavity of a fresh-water fish, *Macrones tengara*, 138.

Fonseca, Luis Da .. *See* Mello and Fonseca.

Ganencar, Narana .. *See* Mello and others.

Gupta, S. N. Das .. On the culture behaviour of a species of *Rosellinia*. II. Further experiments on the production of perithecia, 22.

Kapoor, G. P. .. .. *See* Singh and others.

Khatib, S. M. Hussain .. Four cases of abnormalities in the blood vascular system of the common Indian frog (*Rana tigrina*, Daud.), 277.

Krishnamurti, B. .. A microscopical study of the development of *Trichogramma minutum*, Riley (The egg-parasite of the sugarcane borers in Mysore) and its parasitisation of the eggs of corcyra cephalonica Staint (the flour-moth employed in the mass production of *Trichogramma*), 36.

Lobo, Luis	*See* Mello and Lobo.
Loundó, Dattá	*See* Mello and others.
Majumdar, D. N. ..	The relationships of the Austric-speaking tribes of India, with special reference to the measurements of Hos and Saoras, 1.
Mello, I. F. de, and Fonseca, Luis da	On the schizogonic forms of a plasmodid found in the blood of the green snake *Passerita mycterizans*, Daud, 47.
Mello, I. F. de, and Lobo, Luis	On the morphology and identification of a trypanosome found in the blood of *Hemidactylus brooki*, Gray, 104.
Mello, I. F. de, Ganencar, N., and Loundó, D.	On a flagellate of the intestine of *Tatera indica*, Hardwicke, 177.
Meyrelles, Caetano Correia de	Parasites of the genus *Bertarellia* in the blood of the tortoises of India and Brazil, 49.
Nalini, K. P.	*See* Aiyar and Nalini.
Pal, B. P., and Alam, Nek	The effect of certain external factors upon the manifestation of hybrid vigour in wheat, 109.
Pande, B. P.	The trematode genus *Allocreadium* in North Indian fresh-water fishes, 54.
Panikkar, N. Kesava ..	Studies on *Peachia* from Madras, 182.
Ponnaiya, B. W. X. ..	*See* Ayyangar and others.
Rao, G. S. Raghunatha ..	*See* Sreekantia and others.
Rao, V. Panduranga ..	*See* Ayyangar and others.
	See Ayyangar and others.
Reddy, T. Venkataramana	*See* Ayyangar and others.
Sen, P.	On a new species of Acanthocephala, *Acanthosentis holospinus*, Sp. Nov. from the fish *Barbus stigma* (Cuv. and Val.), 41.
Shamanna, D. ..	*See* Srikantia and others.
Singh, B. N., Kapoor, B. P., and Choudhuri, R. S.	The light factor in crop production, 143.
Srikantia, C., and Shamanna, D.	Studies in blood sugar. II. Fasting blood sugar of South Indian students in Mysore, 230; III. Blood sugar of children, 235.
Srikantia, C., Shamanna, D., and Rao, G. S. Ranghunatha	Studies in blood sugar. I. Variation of blood sugar during menstrual cycle, 225.
Subramaniam, M. K. ..	Studies on the structure of the golgi apparatus. II. Liver cells of *Rhacophorus maculatus*, Gray, 80; III. Some observations on the mechanism of secretion of the golgi bodies in the intestinal cells of *Lumbriconereis*, 125.
	On *Myzostoma gopalai* sp. nov. from the Madras Harbour, 270.
Thirumalachar, B. ..	On certain double monstrosities of Gambusia, 317.
Vanajakshi, T. P. ..	Histology of the digestive tract of *Saccobranchus fossilis* and *Macrones vittatus*, 61.

TITLE INDEX.

Acanthocephala, on a new species, *acanthosentis holospinus* sp. nov. from the fish *barbus stigma* (cuv. and val.) (Sen), 41.

Aitchisoniella himalayensis Kash, a study (Ahmad), 206.

Allocreadium, the trematode genus, in North Indian fresh-water fishes (Pande), 54.

Austric-speaking tribes of India, relationships, with special reference to the measurements of Hos and Saoras (Majumdar), 1.

Bertarellia, genus, parasites, in the blood of the tortoises of India and Brazil (Meyrelles), 49.

Blood sugar, studies. I (Srikantia and others), 225.

Blood sugar, studies, II, III (Srikantia and Shamanna), 230, 235.

Brachymeria excarinata, Gahan (family chalcididæ) a pupal parasite of *Plutella maculipennis*, curtis in South India (Cherian and Basheer), 289.

Chiloscyllium griseum Mull. and Henle, observations on the reproductive system, egg-case, embryos and breeding habits (Aiyar and Nalini), 252.

Crop production, the light factor (Singh and others), 143.

Flagellate of the intestine of *Tatera indica* Hardwicke (Mello and others), 177.

Gambusia, on certain double monstrosities (Thirumalachar), 317.

Golgi apparatus, studies on the structure, II, III (Subramaniam), 80, 125.

Hepatics, Indian, notes—I (Chopra), 239.

Hybrid vigour in wheat, the effect of certain external factors upon the manifestation (Pal and Alam), 109.

Macrones vittatus and *saccobranchus fossilis*, histology of the digestive tract (Vanajakshi), 61.

Myzostoma gopalai sp. nov. from the Madras harbour (Subramaniam), 270.

Peachia from Madras, studies (Panikkar), 182.

Plasmodid found in the blood of the green snake *Passerita mycterizans* Daud on the schizogonic forms (Mello and Fonseca), 47.

(*Pteromys inornatus Geoffroy*), the Himalayan flying squirrel, on a new nematode parasite (Abdussalam), 323.

(*Rana tigrina* Daud), common Indian frog, four cases of abnormalities in the blood vascular system (Khatib), 277.

Rhynchonellids from the Bagh beds (Chiplonker), 300.

Rosellinia, on the culture behaviour of a species of, II (Gupta), 22.

Saccobranchus fossilis and *macrones vittatus*, histology of the digestive tract (Vanajakshi), 61.

Sorghum—internodes and leaf-sheaths, studies (Ayyangar and others), 161.

Sorghum—the non-auriculate and E-ligulate condition, studies (Ayyangar and others), 286.

Trematode, new, *Phyllochones macronius*, n. gen., n. sp. belonging to the family *Gorgoderidæ* Looss (1901), from the body-cavity of a fresh-water fish, *Macrones tengara* (Dayal), 138.

Trematode parasites of fishes, studies, A new trematode *Neoganada barabankiæ* nov. gen., nov. spec.) from *Clarias batrachus* (Dayal), 132.

Trichogramma minutum Riley (the egg-parasite of the sugarcane borers in Mysore), a microscopical study of the development, and its parasitisation of the eggs of *Corcyra cephalonica* Staint (the flour-moth employed in the mass production of *Trichogramma*) (Krishnamurti), 36.

Trypanosome found in the blood of *Hemidactylus brooki* Gray, morphology and identification (Mello and Lobo), 104.
